

North Carolina Granite Corporation

STREETSCAPE CURBING ASHLAR BLOCKS, PAVERS & LANDSCAPING ACCESSORIES

Quality that Lasts

North Carolina Granite Corporation has produced top quality curbing, walks, pavers, retaining walls, foundations, pool decks, landscape, and designer products for 115 years. We provide products that are not only beautiful, they stand up to the weather, traffic abuse, vandalism, and environmental attack.

All products are available in a wide range of colors, in both standard and custom designs. Ashlar makes an impressive and cost effective wall, small building such as park lavatories, service and maintenance shops, monuments and memorials, signs, inspiring churches, and sturdy government buildings, schools libraries and police stations. Owners enjoy centuries of virtually maintenance free life from their investment.

North Carolina Granite Corporation is the nation's largest supplier of bright, white granite aggregate and chips. Available in bulk or bags, and a wide range of sizes. Ideal for everything from Bonsai trees to general ground cover. We also provide larger pieces as decorative boulders, rip-rap, and up to 10 foot panels for erosion control.

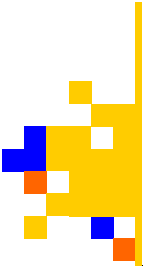

Many of our products can be adapted to serve not only their intended purpose, but also provide an important degree of intrusion protection, traffic control, and pedestrian guidance. North Carolina Granite Corporation's products, coupled with our totally integrated quarry through fabrication capabilities, give the designer and architect unparalleled freedom to create exceptional designs, within budget, that are sure to please for generations to come.

Birdbath, bench and commemorative sign

Define your lawn and drive edges.

Matching ashlar retaining walls and curbing.

Decorative outdoor tables and seating.

Granite curbing protects high traffic parking areas.

Our crushed products make an excellent matching border

All of North Carolina Granite Corporation's quarries and fabrication facilities met the highest environmental standards. None of our facilities discharge any waste materials—100% of what we harvest from the mother rock is converted into a finished product. We are also the leading granite supplier complying with the requirements of the "green" building movement and the sole US supplier of "rain screen" granite products for high rise structures.
